OBJECTIVE

Looking for a challenging role in a reputable organization to utilize my programming, technical, and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

PROJECTS

Chat Application

(April 2021 - April 2021)

This is a chat app made using chatengine.io at backend.

GitHub Code: <https://github.com/thisizvipin/Chat-Application>

Recipe Search Application

(Feb 2021 - Feb 2021)

Simple dish app using API to filter search results for a recipe. (material UI)

GitHub Code: <https://github.com/thisizvipin/Dish-Application>

Spotify Clone

(Dec 2020 - Jan 2021)

A spotify clone made by using react. In this project I used topics like react hooks, context API & Spotify web API.

GitHub Code: <https://github.com/thisizvipin/spotify-clone>

Person Portfolio Website

(Oct 2020 - Nov 2021)

This is my personal one page website which I made using HTML, CSS and JavaScript. This Website contains all my projects and aimed to deliver a clean user experience.

GitHub Code: <https://github.com/thisizvipin/onepage-portfolio>

Coronavirus Web App

(Aug 2020 - Aug 2020)

In this web app, I used my UI/UX skills to provide a clean/smooth experience. Language used in this app is Vanilla JavaScript.

GitHub Code: <https://github.com/thisizvipin/covid-19>
